

Kanyon ATV

Panguitch sits on the edge of **Bryce Canyon National Park**...one of the most beautiful places on earth. Most of our customers tell us their ATV adventure was more awe-inspiring than a visit to the **Grand Canyon**, and others have ranked it even higher.

Rent your ATV or OHV from Kanyon ATV and explore the areas around Bryce Canyon without the restrictions and set-schedule you get with a tour guide. We don't charge mileage, and where you go is **up to you...on your own, and at your own pace.**

Access over **3,500 miles of trails** right from our **door**. Kanyon ATV is located at the heart of where all of these trails meet. Literally **ride right out** of our location and hit the trails immediately. Venture to **Casto Canyon**, only **10-minutes away**, and see the incredible red-rock formations. Or try some of the **Lesser-known trails** that will take you to the **top of the world**, or the middle of the dense area **forests**. Perhaps a trip to **Panguitch Lake** to do some **fishing**? Go see the places others can only see in pictures.

Make this trip one of your most memorable vacations ever. **Rent from Kanyon ATV** and truly experience the area like nobody else can.

Be sure to check out the town of Panguitch too! You can even **ride your ATV around town**, so ride around, park, and visit the **restaurants, shops** and charm of Panguitch!

Kanyon ATV

All of our ATV's are in **excellent condition** and we offer only late-model ATV's & OHV's. We'll help you select the **best equipment** for your experience, and comfort level. Some of the equipment we rent include the units shown below, but we may have others to choose from as inventory allows. Color and model may vary.

All the ATV's/OHV's that we rent come **equipped** with enough **power** to go just about anywhere in the area. All of our ATV's are fully automatic or electric shift, and require very little from the rider to take you **where you want to go.**

SUZUKI QUADRUNNER

A luxurious 4X4 with power to go almost anywhere. It handles like a dream, and is the cream of the crop in our lineup. Easy to drive, but powerful enough for any trail, the QuadRunner is king.

Available in 4X2 or 4X4 models, it's an excellent ATV for the terrain. A very sturdy ATV that can handle most of the terrain the area has to offer. Ideal for getting to the top of those hills to see the amazing views.

YAMAHA BRUI/GRIZZLY

Comfortable 2-Seater 4X4 that drives like a Jeep. This is a great alternative for double-riding on an ATV, and great for riders who are not quite comfortable on a standard ATV. Our Rhino's are very popular, so reservations are highly recommended.
